Using the Mars
Karen Muller, 24, Private Party Manager, Munich
 "I've changed the look of my Mars with a bright red second skin - it certainly stands out in the crowd, and it's really comfortable to hold. I need to manage lots of contacts in my job and the Mars helps me keep on track - both at work and at play! I also use the phone to browse the entertainment WAP sites and keep up with the latest trends."

* These times are approximate and depend on network conditions, temperature, state of charge and usage, type of SIM, etc.
 ** Depending on operator services & product version (please contact the local Mitsubishi customer service for more information).
